

SUMMER 2024

SUBJECT: Art

Year: 7

Topic(s) to be covered

ARCHITECTURE PROJECT: Students will develop their knowledge and understanding in using clay and a range of techniques to shape, mould and apply texture and detail to their work. A number of artists and art movements will be looked at during this project.

Assessment Procedures

Students will be assessed twice during the development of work, once for their sketchbook development and once for their final piece. Sketchbooks are also marked with targets to allow students to improve their progress.

Homework guidance

Students are expected to work on a range of experimental and research-based homework tasks over the period of this project.

Enrichment opportunities:

Encourage frequent visits to some of the local galleries in Birmingham and further afield if possible.

How can you help?

Practicing observational drawing is a very successful way for pupils to develop their perception of the formal elements of Art.
