

## Autumn 2023

**SUBJECT:** Art

**Year:** 8- Monsters Project

### **Topic(s) to be covered**

Students will be researching and drawing from a range of sources to develop ideas that will eventually lead to a clay sculptures. The development of original and creative ideas are essential to the success of this project, as well as acknowledging the influence of contextual sources. Students will be translating their 2D ideas into a 3D sculptural form.

### **Assessment Procedures**

Research, design and production of sculpture will form the body of work for assessment. A final end of year exam piece will complete the assessment for this year.

### **Homework guidance**

Students are expected to work on a range of experimental and research-based homework tasks over the period of this project.

### **Enrichment opportunities:**

The Art Department runs clubs after school on Wednesdays and Thursdays. I would also encourage frequent visits to some of the local galleries in Birmingham and further afield if possible.

### **How can you help?**

Practicing observational drawing is a very successful way for pupils to develop their perception of the formal elements of Art.
