

SPRING/SUMMER 2024

Subject: MFL - German

Year: 11

Topic(s) to be covered - Work, future plans, social issues, preparation for the speaking exam and exam skills

This term students will also finish any topics not previously covered. This will vary from class to class. Students to contact the class teacher should they require more information.

Students will also develop the following skills:

- Asking and responding to questions
- Giving opinions and descriptions
- Reading and listening for gist and detail and inference
- Listening and reading skills (for summer examinations)
- Writing skills and grammar (for writing exam)

Assessment 1 - Reading

Understanding a written text on several topics, reading for detail, gist, and inference.

These will be done in class on a regular basis according to the needs of the class.

Assessment 2 - Listening

Understanding a spoken text on several topics, listening for detail, gist, and inference.

These will be done in class on a regular basis according to the needs of the class.

Homework guidance

There will be regular vocabulary tests (these may take place on the Quizlet website):

It is essential that students learn vocabulary little and often to ensure that they achieve the best grade possible in the final Listening and Reading examinations.

We recommend the use of the app Quizlet to revise vocabulary for the listening and reading exams.

Pupils need to learn outside of lessons to obtain a good grade.

Students need to learn the tenses on the learning mat for the writing exam. They should be able to spell the verbs accurately.

Enrichment opportunities

Students will use engaging and interactive websites such as Kahoot, Quizlet Live, Blooket and Languagenut to help to learn and assess vocabulary.

How can you help?

- Please discourage the use of web-based translation tools such as Google Translate.
- Encourage students to use the learning mat (and revise the tenses on the learning mat) when completing written work (unless it is an assessment)
- **Encourage students to use the Quizlet app for revising vocabulary** and to use a dictionary as support with reading tasks.
- **Encourage students to learn vocabulary regularly and to be resilient.**
- **Encourage pupils to revise thoroughly for the speaking exam which is worth 25% of the final grade.**
