

AUTUMN 2023

SUBJECT: Maths

Year: 7

Topic(s) to be covered:

Set 1, 2 & 3: Analysing and displaying data; Number Skills; Expressions, functions and formulae; Fractions.

Set 4: Analysing and displaying data; Number Skills; Expressions, functions and formulae; Fractions

Assessment Procedures:

In the first half term of Year 7 all students will sit a baseline test. This will be used to inform us on the current ability of the students to make sure they are doing work at the appropriate level.

Following each topic area, students will sit a topic assessment which will be marked and pupils will find out if the work produced is on target for their pathway and it will inform us of your child's progress. A traffic light (PLC) will be filled in and closing the gaps tasks will done to help future progress. These will be in your child's book for each topic area.

There will also be a cumulative assessment in December to check the understanding of all topics covered so far in the year.

Homework guidance:

Homework will be set regularly. The purpose of the homework will normally be to consolidate work done during Year 7 and this will be on a worksheet. There may be occasions where it is a revision homework where they will have to go online and use Mathswatch.

Enrichment opportunities:

Many different approaches will be taken within lessons to provide a deeper understanding of Maths.

How can you help?

Any extra maths you can encourage your child to do will help with their success in the subject. All students also have a login for Mathswatch which contains video clips, interactive questions and related worksheets on everything in Maths from Year 7 to 11. This should also be used at home to boost performance. We also think it is essential that everyone knows their times tables off by heart up to 12 x 12 as it is an essential part in being successful in mathematics. If your child does not know them to this level, then we would encourage work to be done with your child at home to help learn them.

Equipment needed:

- Pencil, green pen, ruler, compass, calculator, rubber, pen, protractor

Textbooks:

Our scheme of work links to the Pearson 11-19 progression textbooks.

Year 7 uses: KS3 Maths Progress Pi 1, Delta 1 and Theta 1.
