

SPRING/SUMMER 2024

Subject: BTEC TECH award - Sport

Year 10

Topics to be covered:

Assessment Component 1:

Understand factors affecting participation
Understand the equipment and technology used in sport
Know the effects of a warm up and lead this to a group

This work will be submitted to the exam board in May.

Assessment Procedures:

Students will complete both practical and written assignments. The assignments will be completed under controlled assessment conditions. Students will learn assignment content and then at the appropriate time, complete written tasks under exam conditions.

For the practical element, students will lead others in various warm up activities. They will plan and deliver coaching sessions to their peers and younger students in school.

Homework guidance:

Students will be given homework periodically in order to support the learning that is occurring within lessons.

Enrichment opportunities:

There will be revision and booster sessions for students to attend ahead of the final online assessment. There will also be targeted intervention for students that are not making as much progress as they should be.

How can you help?

Purchase an BTEC revision guide published by Pearson
Ensure they have completed their homework.
